Before I left the gallery, I pulled out my phone and Artifcted the painting. I wanted to capture the artist with the piece and attach the documentation digitally. I know myself - I'd forget or put it off later.

Collection Management, By Artifcts

The thrill of the hunt for those rare and unique pieces to fill out our collections is undeniable. Equally undeniable is the need to protect our collections. We must consider documentation and notification for insurance, tax, and estate purposes. And we must simultaneously capture the why, when, and where we acquired each piece, contributing the provenance, preserving value, and gifting our loved ones not just 'stuff' but a "why."

Meet Artifcts! Artifcts provides a comprehensive, private, digital solution to collection management that is easy to use and sharing-friendly with advisors, insurance, and family. Within seconds, you can preserve the "why," add supporting documentation, and note your future intent within each Artifct.

Your Easy Next Steps

Rediscover your collection one piece at a time:

1. Spend a morning with your existing collection(s).
2. Take pictures, record video, or both!
3. Artifct individual pieces or whole collections – check our tips.
4. Update your estate plan and insurance and share with your loved ones, too.

And remember, the next time you acquire a new piece, Artifct that on the spot!
